*How many uses can you come up with that would enhance the project you are connected to? Volumes of lower end uses and materials can be diverted and productive in the effort to restore natural areas.*

- Outdoor education areas.
- Children's play areas.
- Walkway parts such as steps or retaining walls.
- Beautiful 3 rail fence systems.
- Kiosk's
- Arbors
- Plank fencing
- Animal run area borders
- Pedestrian path borders
- Large Landscaped elements.
- Sensitive area borders
- Picnic benches or log benches in groups or single.
- Mulch, and colorized or natural ground cover.
- Gazebos
- Camping borders
- Foot bridge materials
- Camping cabins?
