

Linking NERRS Water Quality Science to Decision Making Webinar Series

“NERRS Forward: informing water quality policy and practice with SWMP data.”

Thursday, May 9, 10-11 a.m. PDT Matt Chasse and Grey Hayes, Organizers

Goal

Through this series, and materials and summaries from this series, we hope to increase the understanding of NERRS and the Ocean and NOAA Coastal Office (the new name for the OCRM) about the best, most innovative practices that have been demonstrated to link SWMP water quality data to FWPCA decision making processes.

Agenda

- 10:00 – 10:05 Welcome, review objectives, agenda, ground rules
- 10:05 – 10:20 Report out on work linking SWMP water quality to FWPCA processes (pre-scheduled 3 minute presentations by participants on what they are doing in this realm- let me know if you want to do this!)
- 10:20 – 10:35 *“Informing the Clean Water Act: total maximum daily load policies in the Elkhorn Slough watershed”*
Grey Hayes, Coastal Training coordinator, Elkhorn Slough NERR
- 10:35 – 10:55 Moderated Q and A
- 10:55 – 11:00 Next steps
