

Important preparation instructions for California red-legged frog workshop participants

1) **THINGS YOU NEED:** you will need the following equipment

a. Waders. Ideally, chest waders. Less ideal choices, in descending order: hip waders, knee waders, or tennis shoes with clothes that you don't mind getting soaked in.

b. Flashlight AND head lamp. Download and read the document from our website:

Criteria for the Selection and Use of Light Sources and Binoculars for Visual Encounter Surveys of Adult and Sub-Adult California Red-legged Frogs (Rana draytonii)

This document contains important information concerning light sources for eye shine surveys - VERY IMPORTANT – you will probably need to invest in new equipment, which will take time to find/ship.

c. Warm clothes. This field work is at night, on the coast, in water and maybe in drizzle. Be prepared to be cold and wet.

d. Dipping net. This is not required of everyone but if you have one it will help augment the limited number our researchers will have available.

e. Binoculars

2) **Directions:** We will meet at the Elkhorn Ranch and Native Plant Nursery, 1957B Highway 1, Moss Landing, next to the first gate on the right along the driveway at 8 p.m. SHARP. Late arrivers may forfeit their attendance due to inability to find the group, which will punctually depart behind locked gates from that location.

3) **Carpooling?** You may want to find someone to drive with. We will post a contact list of others attending this workshop 2 weeks in advance of the training at the web page listed above.

4) **Rest Rooms:** In the field? Are you kidding?? But it will be night time ... be prepared for field conditions.

5) **Rain? Still on? Emergencies?** If it rains a ton – prolonged heavy downpours – we may cancel this field training session. If you are wondering if it is still going to happen, feel free to call Dan Brumbaugh at: 831-332-6933 any time between now and then. If you have other 'emergency' type questions/concerns, etc – call us. We'll be in touch with all others involved with the event.
